Team member: **Chase Hunter, Score: 5/5**

Review: Chase is a good teammate to have. He's pretty expressive and knows what he wants and what he's in charge of. He always takes good notes during every meeting and willing to keep others updated when they cannot make it to the meeting. He's always on the track of what the industry mentor expects for the project and gives good suggestion when needed. And he shows extensive knowledge on his concentration of the major which really helps with this capstone. And he's always on time with every meeting. Overall, he was a good team member.

Team member: **Karine Chen, Score: 5/5**

Review: Karine is a good teammate to have. She's very organized with entire capstone course even though she has a different purpose for this capstone than the rest of the team. She usually takes initiative about meetings and trying her best to find the best time between all the team members and mentors. And she's able to utilize what she known to accomplish more with less and appropriately contribute her knowledge to this capstone. Overall, she's a good team member to have.
